Description			
Regarding bsc#1089327 New: Nvidia license isn't displayed when selecting nvidia drivers in the installer			
We need to check necessary licenses pop-up. In the context of SLE-12-SP4, the target packages list is:			
<ul style="list-style-type: none">• AdobeLCCProfiles• agfa-fonts• ati-fglrxG01• ati-fglrxG01-KMP• ati-fglrxG02• ati-fglrxG02-KMP• banshee-1-samsung-codecs• cxgb3-firmware• cxgb4-firmware• fetchmsttfonts• gst-fluendo-mp3• gst-fluendo-plugins• gstreamer-0_10-fluendo-mp3• gstreamer-fluendo-mp3• ICAClient• IPAGothic• IPAMincho• IPAPGothic• IPAPMincho• IPAUIGothic• java-1_5_0-sun-alsa• java-1_5_0-sun-demo• java-1_5_0-sun-devel• java-1_5_0-sun• java-1_5_0-sun-jdbc• java-1_5_0-sun-plugin• java-1_5_0-sun-src• java-1_6_0-sun-alsa• java-1_6_0-sun-demo• java-1_6_0-sun-devel• java-1_6_0-sun• java-1_6_0-sun-jdbc• java-1_6_0-sun-plugin• java-1_6_0-sun-src• nvidia-gfx• nvidia-gfxG01• nvidia-gfxG01-KMP• nvidia-gfxG02• nvidia-gfxG02-KMP• nvidia-gfx-KMP• s390-tools-zdsfs• snipl• websphere-as_ce• x11-video-fglrxG01• x11-video-fglrxG02• x11-video-nvidia			

- x11-video-nvidiaG01
- x11-video-nvidiaG02
- xep
- xep-license

The test step is preferred to happen during installation (using yast installer) and after installation (using zypper).

Scenario 1.

During the installation, get into software detailed management.

- Step through the following actions
- select one of the packages to install
- go to next step to check the license pop-up
- select another listed packages to install
- go to next step ...
- ...
- [until all packages in the list are covered]

Scenario 2.

Boot to a installed system, install through each packages one by one, check each of the licenses is popped up.

Zhaocong,

Would you help to keep this in the working queue. Thanks!

#3 - 2021-06-21 08:35 - maritawerner

I guess that is done already? Could we close the ticket?

#4 - 2021-07-16 07:23 - zcjia

- *Priority changed from High to Normal*

This is not done, but priority is not that high. Can be implemented differently in SLE15 series.
