Category:	Bugs in existing tests		**Estimated time:**	0.00 hour
Target version:	Milestone 16			
Difficulty:	easy			

Description

Observation

openQA test in scenario sle-15-Installer-DVD-x86_64-nis_client@64bit fails in
nis_client

According to https://bugzilla.suse.com/show_bug.cgi?id=1084472#c4 it is wanted behaviour that ypbind is not installed, therefore we need to install it first.
We already had https://progress.opensuse.org/issues/29000 to handle this in ncurses and for the server, maybe the PR contains some nice snippets for this ticket.

Reproducible

Fails since (at least) Build 444.1

Expected result

Last good: (https://openqa.suse.de/tests/1588504#) (or more recent)
Ypbind should be installed and the test should continue normal afterwards

Further details

Always latest result in this scenario: latest
