

openSUSE 13.2 Release - action #3518

obsolete BNC847880_QT_cirrus

2014-09-03 13:31 - coolo

Status:	Resolved	Start date:	2014-09-03
Priority:	Normal	Due date:	
Assignee:	alarrosa	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	13.2 Beta 1		
Description			
Either we fix the bug (unlikely admittedly) or at least the system detects itself that cirrus needs a different QT system without openqa having to reboot			

History

#1 - 2014-09-05 11:21 - Inussel

- Assignee set to alarrosa

for Antonio maybe?

#2 - 2014-09-15 10:55 - coolo

shumski patched libqt4 - <https://build.opensuse.org/request/show/247965>

#3 - 2014-09-19 09:33 - alarrosa

I've created a real fix instead of a workaround as explained in bnc#847880 and removed the workaround from shumski from the spec file - <https://build.opensuse.org/request/show/250158>

#4 - 2014-09-23 08:07 - coolo

- Status changed from New to Resolved
