

openSUSE Leap 15.0 - action #35548

sync :NonFree

2018-04-25 19:43 - Inussel

Status:	Closed	Start date:	2018-04-25
Priority:	Normal	Due date:	2018-05-01
Assignee:	jberry	% Done:	100%
Category:	Release Engineering	Estimated time:	0.00 hour
Target version:	Bugfree		
Description			
I think we forgot to activate the update crawler for the :NonFree project. So we should sync with Factory at least once now.

Ran once:

```
$ ./update_crawler.py -a -f openSUSE:Factory:NonFree -t openSUSE:Leap:15.0:NonFree
creating submit request openSUSE:Factory:NonFree stream d8e0fb226a171a014ee8d0e175e17b24 openSUSE:Leap:15.0:NonFree stream
INFO:root:Created request 601090 for stream
creating submit request openSUSE:Factory:NonFree unrar db9b003e320fd8e4a46cf4ad7beee578 openSUSE:Leap:15.0:NonFree unrar
INFO:root:Created request 601091 for unrar
creating submit request openSUSE:Factory:NonFree steamcmd a809efefd00109d21a10d5004ac08c3f openSUSE:Leap:15.0:NonFree steamcmd
INFO:root:Created request 601092 for steamcmd
INFO:root:Package openSUSE-release not found in targets
INFO:root:Package perlref not found in targets
```

#2 - 2018-04-26 03:13 - jberry

Forgot I ran with --new after:

```
./update_crawler.py -a --new -f openSUSE:Factory:NonFree -t openSUSE:Leap:15.0:NonFree
creating submit request openSUSE:Factory:NonFree openSUSE-release 79d32816eaa93f38a6ad53cae70ff7b openSUSE:Leap:15.0:NonFree openSUSE-release
INFO:root:Created request 601093 for openSUSE-release
creating submit request openSUSE:Factory:NonFree perlref 968b716f01795db8710da5efee8dfe30 openSUSE:Leap:15.0:NonFree perlref
INFO:root:Created request 601094 for perlref
```

The openSUSE-release seems wrong, perhaps an issue for tool to ignore needs to be created.

I declined openSUSE-release manually. Not sure why it is in nonfree anyways :)
