

openQA Tests - action #35604

[opensuse][functional][u] test fails in gnucash, not closing correctly

2018-04-26 13:36 - mloviska

Status:	Resolved	Start date:	2018-04-26
Priority:	Normal	Due date:	2018-07-17
Assignee:	zluo	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:	Milestone 17		
Difficulty:			

Description

Observation

openQA test in scenario opensuse-Tumbleweed-NET-x86_64-xfce@64bit fails in [gnucash](#)

Save pop up does not appear before closing of main window. Key shortcut for closure was issued without any apparent response from the application.

I was not able to reproduce the issue during manually testing gnucash-3.0-1.1.x86_64

```
[2018-04-26T14:22:43.0752 CEST] [debug] /var/lib/openqa/cache/openqa1-opensuse/tests/opensuse/test
s/x11/gnucash.pm:33 called testapi::send_key
[2018-04-26T14:22:43.0753 CEST] [debug] <<< testapi::send_key(key='ctrl-q', do_wait=0)
```

Reproducible

Fails since (at least) Build [20180425](#) (current job)

Expected result

Last good: [20180424](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)
