Difficulty:			

Description

Motivation

We had workaround for SLE 12, which we need to bring back with bug reference

Observation

openQA test in scenario sle-12-SP4-Server-DVD-x86_64-gnome+proxy_SCC+allmodules@64bit fails in [scc_registration](#)

Reproducible

Fails since (at least) Build [0095](#)

Expected result

The previous job was fine because we still had a workaround but for a SLE15 bug so we need the corresponding step for SLE12SP4 now

Further details

Always latest result in this scenario: [latest](#)
