

openQA Tests - action #36226

[sle][functional][y][fast] changes of shortcuts in storage-ng

2018-05-15 08:42 - riafarov

Status:	Resolved	Start date:	2018-05-15
Priority:	High	Due date:	2018-05-22
Assignee:	riafarov	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:	Milestone 16		
Difficulty:			

Description

Observation

We have many shortcut changes in latest build, @maxlin has fixed some which were there for openSUSE, but some parts are still missing for SLE.

openQA test in scenario sle-15-Installer-DVD-ppc64le-RAID0@ppc64le fails in [partitioning_raid](#)

Reproducible

Fails since (at least) Build [617.5](#)

Expected result

Last good: [611.1](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

History

#1 - 2018-05-15 08:44 - okurz

- Target version set to Milestone 16

#2 - 2018-05-15 13:24 - riafarov

- Status changed from Workable to Feedback

<https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/5055>

#3 - 2018-05-17 15:54 - riafarov

- Status changed from Feedback to Resolved

Seems to work fine, feel free to reopen if something is still broken or became broken.

#4 - 2018-05-28 13:08 - nicksinger

- Status changed from Resolved to Workable

Not sure if related but it looks to me like the "enable snapshot" functionality of addpart in [lib/partition_setup.pm](#) is not yet adapted. I noticed it in [this openQA job](#). Not sure why it worked 5 days before.

#5 - 2018-05-28 14:10 - riafarov

- Status changed from Workable to Resolved

Not related to shortcut changes, similar issue as Martin has already fixed, will be resolved as part of <https://progress.opensuse.org/issues/35134>
