

openQA Tests - action #36313

[qe-core][sle][opensuse][qem] enhance update_packagekit tests

2018-05-17 08:20 - jorauch

Status:	Workable	Start date:	2017-12-05
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Enhancement to existing tests	Estimated time:	5.00 hours
Target version:	future		
Difficulty:	medium		
Description			
Observation			
In the update tests we depend highly on which types of updates are available, so we do not test every branch in every build (e.g. we have no updates that require a reboot) To test as much as possible there are update tests in: http://download.opensuse.org/update/leap/15.0/oss/x86_64/ We should try to integrate this to our tests, not only for leap but for all products			
Acceptance criteria			
AC1: Tests are not broken AC2: All sorts of updates are being tested on opensuse AC3: All sorts of updates are being tested on sle			
Suggestions			
<ul style="list-style-type: none">Do not test updates on openSUSE Tumbleweed because updates there are less important and seldom and we do not have an update repo with <i>test packages</i>For SLE or Leap make sure that the published update-repo with test update packages (see #36451) are available, at least as long as BETA=1 is set

History

#1 - 2018-05-17 08:20 - jorauch

- Copied from action #28875: [sle][functional][sporadic][hard][u] test fails in updates_packagekit_gpk - updater should not be started when already running added

#2 - 2018-05-17 08:21 - jorauch

- Status changed from Feedback to Workable
- Priority changed from High to Normal

#3 - 2018-05-17 08:25 - okurz

- Priority changed from Normal to Low
- Target version changed from Milestone 16 to Milestone 18

It's a cool idea but that high prio for now. So sure, you can continue to work on this as a fall-back task for now and eventually we should also pick it up with higher prio again.

#4 - 2018-05-18 07:51 - jorauch

- Priority changed from Low to Normal
- Target version changed from Milestone 18 to Milestone 16

The question here is at which point we should add the new repo.
I would do this in a separate module to keep it flexible enough for all products and architectures
Maybe we could use zypper_ar for this

#5 - 2018-05-23 15:58 - okurz

- Related to action #36451: [functional][y] Testing presence or absence of update-test* packages on iso, based on BETA flag added

#6 - 2018-05-23 16:10 - okurz

did you change the prio + milestone intentionally?

#7 - 2018-05-24 06:10 - jorauch

- Priority changed from Normal to Low

- Target version changed from Milestone 16 to Milestone 18

Nope, that happened when adding the last comment, sorry for that

#8 - 2018-06-15 18:51 - okurz

- Target version changed from Milestone 18 to Milestone 18

#9 - 2018-07-27 10:52 - jorauch

- Due date set to 2018-08-14

As discussed with okurz

#10 - 2018-07-27 11:56 - jorauch

related PR by dheidler:

<https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/5477>

#11 - 2018-08-01 08:33 - mgriessmeier

- Blocked by action #38393: [functional][u] updates_packagekit_kde must not be scheduled before zypper_clear_repos added

#12 - 2018-08-01 08:34 - mgriessmeier

- Status changed from Workable to Blocked

blocked by <https://progress.opensuse.org/issues/38393>

#13 - 2018-08-01 08:41 - mgriessmeier

- Estimated time set to 5.00 h

#14 - 2018-08-03 20:22 - okurz

- Description updated

#15 - 2018-08-06 12:23 - okurz

- Status changed from Blocked to Workable

blocker resolved. I think this covers "do not look for updates on TW" already. If in doubt talk to [dheidler](#) please.

#16 - 2018-08-14 11:49 - okurz

- Due date changed from 2018-08-14 to 2018-08-28

bulk move to next sprint as could not be discussed in SR

#17 - 2018-08-15 09:15 - okurz

- Due date changed from 2018-08-28 to 2018-09-11

- Target version changed from Milestone 18 to Milestone 19

we got interrupted on that one for the time being. We have too many tickets planned for current S24 so let's delay some time

#18 - 2018-09-06 08:10 - jorauch

I would like to delay this until the return of dheidler

#19 - 2018-09-11 08:46 - mgriessmeier

- Due date changed from 2018-09-11 to 2018-09-25

#20 - 2018-09-12 08:25 - mgriessmeier

- Due date changed from 2018-09-25 to 2018-10-09

- Assignee deleted (jorauch)

#21 - 2018-09-25 21:27 - okurz

- Due date deleted (2018-10-09)

- Target version changed from Milestone 19 to future

[riafarov](#) is currently working on harmonizing the update schedule which might have an impact and someone from QAM plans to look into `update_packagekit_kde` as well. We can look into this but ... not now.

#22 - 2020-02-25 10:03 - mgriessmeier

- Status changed from Workable to Rejected

We don't know currently what parts of this is already covered and what not - please reopen or create a proper one with explicit request

#23 - 2020-02-25 12:38 - okurz

- Subject changed from `[sle][opensuse][functional][medium][u] enhance update_packagekit tests` to `[sle][opensuse][qam] enhance update_packagekit tests`

- Status changed from Rejected to Workable

mgriessmeier wrote:

We don't know currently what parts of this is already covered and what not - please reopen or create a proper one with explicit request

this is a bit lame explanation. The link to test updates needs an update of course: http://download.opensuse.org/update/leap/15.2/oss/x86_64/

This shows all different categories of updates:

- update-test-32bit-pkg
- update-test-affects-package-manager
- update-test-broken
- update-test-feature
- update-test-interactive
- update-test-optional
- update-test-reboot-needed
- update-test-relogin-suggested
- update-test-security
- update-test-trivial

but I think by now it fits better the scope of [qam].

#24 - 2020-11-06 10:16 - tjyrinki_suse

- Subject changed from `[sle][opensuse][qam] enhance update_packagekit tests` to `[qe-core][sle][opensuse][qam] enhance update_packagekit tests`

#25 - 2020-11-26 11:48 - tjyrinki_suse

- Subject changed from `[qe-core][sle][opensuse][qam] enhance update_packagekit tests` to `[qe-core][sle][opensuse][qem] enhance update_packagekit tests`
