

openSUSE Leap 15.1 - action #37186

Setup 15.1 release notes

2018-06-12 13:02 - Inussel

Status:	Resolved	Start date:	2018-06-18
Priority:	Normal	Due date:	2018-06-29
Assignee:	stfnknorr	% Done:	100%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	Alpha		
Description			
A branch for new distribution needs to be created in the release notes git and the package adjusted accordingly.			
The tokens for obs are on the factoryauto bot in packagelists			
source of obs service for reference https://github.com/github/github-services/blob/master/lib/services/obs.rb

History

#1 - 2018-06-12 13:02 - Inussel

- Copied from action #25062: Setup 15.0 release notes added

#2 - 2018-06-12 14:40 - Inussel

- Subject changed from Setup 15.0 release notes to Setup 15.1 release notes

- Due date changed from 2018-11-18 to 2018-06-29

- Start date changed from 2018-08-29 to 2018-06-18

#3 - 2018-06-26 08:20 - Inussel

- Assignee set to stfnknorr

Stefan, can you take care of this please? Availability of release notes is required for openQA too.

#4 - 2018-06-26 14:36 - Inussel

I copied the 15.0 directory on doc.opensuse.org to 15.1 for now to unblock openQA

#5 - 2018-06-29 19:28 - stfnknorr

- Status changed from New to In Progress

- % Done changed from 0 to 90

Should be taken care of now. We have:

- Leap_15.1 branch
- Weblate setup
- Documentation:Auto package + Obs token setup
- updated RN config file on gate.o.o server [there is an SSL issue with Git because of old packages; I worked around for the moment but need to tell Theo or so]
- initial distro package via sr#619826

Missing anything?

If not, let's see if it all works and close.

#6 - 2018-07-02 17:44 - stfnknorr

- Status changed from In Progress to Resolved

- % Done changed from 90 to 100

Setting resolved (distro package is still in review, everything else seems to work). An oh, Git issue reported at <https://progress.opensuse.org/issues/38072>.

#7 - 2019-05-27 11:58 - Inussel

- Copied to action #52088: Setup 15.2 release notes added
