

openSUSE Leap 15.1 - action #37207

verify staging UEFI certificate

2018-06-12 13:02 - Inussel

Status:	Closed	Start date:	2018-06-25
Priority:	Normal	Due date:	2018-06-29
Assignee:		% Done:	100%
Category:	Release Engineering	Estimated time:	0.00 hour
Target version:	Alpha		
Description			
The UEFI certificate in staging and rings needs to be equal. If there's something wrong, like openQA not booting verify by checking /etc/uefi/certs in the shim package in Leap vs Factory. Use openssl to dump the certificates:			
<pre>openssl x509 -noout -text -nameopt multiline,utf8,-esc_msb -inform DER -in \$file</pre>
