#1 - 06/07/2018 02:11 pm - pjessen
- Due date set to 09/07/2018
- Status changed from New to In Progress
- Private changed from Yes to No

I've asked Gertjan if he would mind writing a goodbye message on behalf of the Board. I'll then broadcast it to the lists.

opensuse.infrastructure - apparently never used. (no entry in the virtual map). Removed.
yast-announce - list does not exist.

I have sent an announcement to the rest, saying the list will close on 13/7/2018.

on baloo, /tmp/klop2 currently has a list of the mailing lists above.

grep -v ^#/tmp/klop2 | while read l do
cat $l/subscribers.d/? | xargs printf "/usr/bin/mlmmj-unsub -L /var/spool/mlmmj/$l -a %s -c -N

cat $l/nomailsubs.d/? | xargs printf "/usr/bin/mlmmj-unsub -L /var/spool/mlmmj/$l -a %s -c -n\n" done

#5 - 11/07/2018 05:33 am - pjessen

after discussion on the list, opensuse.pt is not to be closed.

Hi Theo - some virtual map removals:

- opensuse-translation-hu
- opensuse-translation-ru
- opensuse-translation-sk
- libyui-devel
- limal-commit
- limal-devel
- opensuse-invis
- opensuse-wiki-de
- opensuse-bar
- opensuse-ceph
- opensuse-foundation
With ISDN services being phased out in Germany and Switzerland, most likely elsewhere too, I suggest we also close “opensuse-isdn-de”. The last non-spam post was in March 2014. I have sent a notification to the list suggesting it be closed by 31 August.

After I wrote to opensuse-doc that we won't shut it down because of the recent activity, several people stated that they no longer need it and prefer closing it.

Therefore please shut down the opensuse-doc mailinglist.

opensuse-doc closed, 186 users unsubscribed.

done, I removed also opensuse-foundation (which was commented out and never used, as the same day we decided to use heroes@ instead)

I meant opensuse-infrastructure

Cool, thanks.
/var/spool/mimjm tidied up, all done.
