**Description**

**Observation**

We had a bug [https://bugzilla.suse.com/show_bug.cgi?id=1101851](https://bugzilla.suse.com/show_bug.cgi?id=1101851)
openQA test in scenario sle-12-SP4-Server-DVD-x86_64-yast2_ncurses@64bit fails in yast2_http
So we could test that scenario works with 'localhost', ip address and FQDN

**Acceptance criteria**

1. Verify that yast2_http handles ip address, hostname (e.g localhost), and ip address (consider ipv6 too)

**History**

#1 - 2018-07-19 21:01 - okurz
- Priority changed from Normal to High
- Target version set to Milestone 18

#2 - 2018-07-23 09:32 - riafarov
It's actually a bug ([https://bugzilla.suse.com/show_bug.cgi?id=1101851](https://bugzilla.suse.com/show_bug.cgi?id=1101851)), looks like fix is on the way, so workaround should not be required.

#3 - 2018-07-23 12:02 - okurz
right, care to track this ticket as blocked then?

#4 - 2018-08-14 16:20 - riafarov
- Subject changed from [functional][sle][y] test fails in yast2_http - change localhost for FQDN hostname to [functional][sle][y] test fails in yast2_http - test FQDN hostname, localhost and ip
- Description updated
- Due date set to 2018-08-28
- Category changed from Bugs in existing tests to New test
- Priority changed from High to Normal

#5 - 2018-08-15 09:56 - riafarov
- Due date deleted (2018-08-28)
- Target version changed from Milestone 18 to future

#6 - 2020-10-20 15:06 - riafarov
- Status changed from New to Rejected
- Assignee set to riafarov

Irrelevant now.
