History

#1 - 2018-07-24 12:19 - jbaier_cz

- Subject changed from [qam] [wayland] test fails in window_system to [qam] [wayland] test sometimes fails in window_system

- Category changed from Bugs in existing tests to Enhancement to existing tests

I suspect this is more a timing issue, something similar to https://progress.opensuse.org/issues/30613

Seems failing only on machines with virtio-vga. Restart helps most of the time.

Note to myself: switch from script_output call as it seems to be not fully reliable.

#2 - 2018-07-25 13:44 - jbaier_cz

- Status changed from New to Blocked

- Parent task set to #38837

#3 - 2018-08-24 09:02 - pcervinka

Happened several times last few days:
https://openqa.suse.de/tests/1977804
https://openqa.suse.de/tests/1978727
https://openqa.suse.de/tests/1976785

#4 - 2018-08-29 07:53 - pcervinka

- Priority changed from Normal to High

There many failures in SLE15 tests in window_system:
https://openqa.suse.de/tests/overview?distri=sle&version=15&build=20180828-4&groupid=165

Could you please check it?

Also current status is blocked by poo#38837, which is already resolved.

#5 - 2018-08-30 10:10 - jbaier_cz

https://openqa.suse.de/tests/1978727#step/window_system/4 show error in the typing of the command, so the script_output call is the one to blame.

Failures in SLE15 are due to font change and thus the x11_start_program fails.

#6 - 2018-09-14 06:21 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: qam-regression-piglit@64bit-virtio-vga
https://openqa.suse.de/tests/2040914

#7 - 2019-01-09 14:31 - jbaier_cz

- Related to action #45677: test fails in window_system - variable XDG_SESSION_TYPE is not defined added

#8 - 2019-01-09 16:00 - jbaier_cz

- Status changed from Blocked to Resolved

Test rewritten to use select_serial_terminal.
