Description

Write two articles for the openSUSE blog:

- 1) First article: explain the motivation behind this new iteration of openQA. Talk about the new design and future. Why is important for the distribution and how is the overall QA workflow that we expect to meet.
- 2) Second article: how is the new openQA, how to make tests and needles

History

#1 - 2013-05-28 16:00 - aplanas

- Due date changed from 2013-05-20 to 2013-06-07
- Start date changed from 2013-05-13 to 2013-06-03

#2 - 2013-05-29 10:34 - Anonymous

If you do two articles, I suggest you get the first one written asap - and the second one published after the sprint is over; with perhaps some suggestions on how to proceed (where people can send patches :D).

#3 - 2013-05-29 10:45 - aplanas

Ok. I will start with the motivations one.

#4 - 2013-05-31 09:11 - aplanas

- % Done changed from 0 to 50
- Status changed from New to In Progress

Submitted the first article.

The first blog post is out: <https://lizards.opensuse.org/2013/06/06/openqa-in-opensuse/>

The presentation at oSC explains how to create needles and all that and could be turned into a second blog post about openQA: <https://conference.opensuse.org/osem/conference/osc2013/proposal/92>

#6 - 2013-08-29 08:57 - toscalix

- Due date changed from 2013-06-07 to 2013-09-20
- Assignee changed from aplanas to Anonymous

- Define the date for the second blog post and add it to this task.
- Relate the one you create in the internal project with this one so when you update one, you remember to update this one.

#7 - 2013-10-07 08:39 - toscalix

- Priority changed from Normal to High

Please update this task

#8 - 2013-10-07 08:46 - aplanas

- Status changed from In Progress to Resolved

- % Done changed from 50 to 100

The article was published:
