| <b>Target version:</b>  |                                  |
| <b>Difficulty:</b>  |                                  |
| <b>Description</b>  |                                  |
| On ipmi backend, upload_logs fails from time to time in jobs. Fail reason is "curl: fail creating formpost data"  |                                  |
| It happened since build 0312.   |                                  |
| Failure job(build 0315 has several such failure jobs):<br><a href="http://openqa.suse.de/tests/1880375#step/update_package/24">http://openqa.suse.de/tests/1880375#step/update_package/24</a> |                                  |

- Status changed from New to Closed

Not openqa backend issue, so close it.

##### #2 - 2018-08-02 05:14 - szarate

What was it?
