[functional][y][regression][bsc#1099394] Verify YaST constructs wrong udev name for dm-uuid names

2018-08-13 08:55 - riafarov

Status:	New	Start date:	2018-08-13
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	future		

Description

Motivation

We had a bug in [bsc#1099394](#), and would like to validate it in new builds.

Also see trello: <https://trello.com/c/Ncr2zQi3/126-sles12-sp3-p2-l3-1099394-yast-constructs-wrong-udev-name-for-dm-uuid-names>

EDIT: 2018-11-30: IBM has mentioned that bug explicitly in a "SLE15 lessons learned" meeting with SUSE: #43451

Acceptance criteria

- **AC1:** Bug fix is validated manually
- **AC2:** Test module is added to validate dm-uuid format (e.g. in mutlipath test suite) for SLE 12 and SLE 15

History

#1 - 2018-08-15 11:26 - okurz

- Target version set to future

#3 - 2018-11-30 09:24 - okurz

- Description updated

#4 - 2020-10-21 09:47 - riafarov

- Project changed from openQA Tests to qe-yast

- Category deleted (New test)
