As I can see the test failed for:

```
my $dhcp_leases_file = script_output("cat /var/lib/dhcp/db/dhcpd.leases\n");
```

This happened recently and we didn't see this issue for a long time.

Observation
sle-15-SP1-Installer-DVD-x86_64-Build43.1-remote_ssh_controller failed in remote_controller

Reproducible
Fails since (at least) Build 41.4

Expected result
Last good: https://openqa.suse.de/tests/overview?distri=sle&version=15-SP1&build=35.18
