openQA Tests - action #41492

A functional test fails in installation to execute even detection of console in the post_fail_hook, is "inst-console" really looking different now?

24/09/2018 09:59 am - okurz

Status: Rejected
Priority: Normal
Assignee: riafarov
Category: Bugs in existing tests
Target version: Milestone 21
Difficulty:

Description

Observation

openQA test in scenario opensuse-15.1-DVD-x86_64-autoyast_gnome@uefi-2G fails in installation
but even the console for the post_fail_hook is not detected. Did the header for the inst-console really vanish?

Reproducible

Fails since (at least) Build 307.2 (current job)

Expected result

Last good: 305.2 (or more recent)

Further details

Always latest result in this scenario: latest

- Duplicates action #42710: [functional][y][autoyast] openQA fails to collect logs if autoyast installation fails on second stage added

#4 - 04/12/2018 09:24 am - riafarov

- Status changed from New to Rejected
- Assignee set to riafarov

Reject this one as it has misleading description, it's about log collection during second stage of the autoyast installation.
