[sle] test fails in boot_from_pxe: System did not reset background color

2018-10-02 12:50 - michalnowak

Status:	Resolved	Start date:	2018-10-02
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
Observation			
openQA test in scenario sle-12-SP4-Server-DVD-x86_64-virt-guest-migration-developing-from-developing-to-developing-kvm-dst@virt-mm-64bit-ipmi fails in boot_from_pxe			
It seems that the OS did not reset the background color and the PXE background color was kept.			
Reproducible			
Fails since (at least) Build 0403 (current job)			
Expected result			
Last good: 0396 (or more recent)			
Further details			
Always latest result in this scenario: latest

- Priority changed from Normal to Low

This ticket was set to "Normal" priority but was not updated within 730 days which is 2 times the period of the SLO for "Normal" tickets (365 days) as described on <https://progress.opensuse.org/projects/openqatests/wiki/Wiki#SLOs-service-level-objectives>. The ticket will be set to the next lower priority of "Low".

- Status changed from New to Resolved

This is unstability issue that happens on ipmi backend jobs. This is fixed by openqa recent change of "os-autoinst/os-autoinst] Fix for select_patterns - make needle matching less forgiving (#1633)".
