Description

Acceptance criteria

- **AC1:** No job group "userspace (regressions)" exists anymore on the top level or within SLE15

Suggestions

- For all scenarios in [https://openqa.suse.de/group_overview/112](https://openqa.suse.de/group_overview/112), when they pass, move to Functional, else keep in job group
- Move the job group with all remaining scenarios into the "Development" parent job group

Move to new QSF-u PO after I moved to the "tools"-team. I mainly checked the subject line so in individual instances you might not agree to take it over completely into QSF-u. Feel free to discuss with me or reassign to me or someone else in this case. Thanks.
