

openQA Tests - action #43613

[functional][u] test fails in rsync

2018-11-09 09:36 - Inussel

Status:	Resolved	Start date:	2018-11-09
Priority:	High	Due date:	2018-11-09
Assignee:	ccret	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:	Milestone 21		
Difficulty:			

Description

Observation

the rsync needle does not work at the end of the screen. Maybe add a 'clear' somewhere to avoid that situation?

openQA test in scenario opensuse-15.1:S:D-Staging-DVD-x86_64-textmode@64bit fails in [rsync](#)

Reproducible

Fails since (at least) Build [31.1](#) (current job)

Expected result

Last good: [30.2](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

History

#1 - 2018-11-11 17:39 - okurz

- Subject changed from test fails in rsync to [jeos] test fails in rsync

- Assignee set to ccret

#2 - 2018-11-12 09:46 - Inussel

has nothing to do with JeOS. Was in regular leap stagings

#3 - 2018-11-12 09:49 - ccret

- Status changed from New to In Progress

There is a clear_console there, but it's in the wrong place. I am changing it now.

#4 - 2018-11-12 13:27 - ccret

PR: <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/6190>

#5 - 2018-11-12 20:10 - okurz

has nothing to do with JeOS. Was in regular leap stagings

yes, sorry. I was adding [jeos] to refer to the virtual team that ccret is working in, not the product that the bug was found in.

[ccret](#), do you have a better tag we could use in tickets?

#6 - 2018-11-13 08:54 - ccret

[okurz](#) not really. Other than jeos I don't think there are other tags for this team.

#7 - 2018-11-14 07:23 - okurz

I see, maybe you can find a better team-label which does not limit to "jeos" to prevent the confusion we had here? :)

#8 - 2018-11-20 09:31 - michalnowak

- *Subject changed from [jeos] test fails in rsync to test fails in rsync*

The scope of the test is very general, kinda feels like [sle][functional] to me. If you don't like that, just assign it to the right person :).

#9 - 2018-11-20 14:01 - okurz

- *Subject changed from test fails in rsync to [functional][u] test fails in rsync*

- *Target version set to Milestone 21*

yes, that would be the right marker regarding the scope but not the "team". Fine, taking it into the backlog of QSF-u but with ccret assigned to track.

[ccret](#), as the due date has passed, what are your plans regarding this ticket? What's your estimate when you would be done?

#10 - 2018-11-20 14:05 - ccret

- *Status changed from In Progress to Resolved*

[okurz](#) sorry, I forgot to mark it resolved. It is done as per the PR above
