

openQA Tests - action #43904

[migration] test fails in boot_to_desktop - proper needles for SLE11 desktop with according version tags needed

2018-11-16 12:51 - okurz

Status:	Rejected	Start date:	2018-11-16
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
Observation			
openQA test in scenario sle-15-SP1-Installer-DVD-x86_64-media_upgrade_sles11sp4+ha+geo@64bit fails in boot_to_desktop			
Reproducible			
Fails since (at least) Build 35.18			
Expected result			
Desktop should be detected, seems like this never worked?			
Further details			
Always latest result in this scenario: latest			

History

#1 - 2018-12-03 07:23 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: media_upgrade_sles11sp4_minipatch
<https://openqa.suse.de/tests/2267202>

Now such HA migration test owned by QA HA team, so please QA HA team to have a look on this issue.

#3 - 2021-06-15 03:14 - leli

- Status changed from New to Rejected

From our SLE11SP4 cases, there is no such scenarios and no such issue. And for HA test, I think they do not have such test scenario also. So I think it is better to reject this ticket and we can open a new ticket if can reproduce it.
