

## openQA Tests - action #44030

coordination # 15132 (Blocked): [saga][epic] Better structure of test plans in main.pm

### [functional][y] Extend the use of scheduling test parameters

2018-11-20 10:37 - okurz

<b>Status:</b>	Rejected	<b>Start date:</b>	2018-11-20
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	riafarov	<b>% Done:</b>	0%
<b>Category:</b>	Enhancement to existing tests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Milestone 25		
<b>Difficulty:</b>			
<b>Description</b>			
<b>Motivation</b>			
As we have test variables <code>INSTALLATION_VALIDATION=&lt;modules&gt;</code> and <code>SCHEDULE=&lt;modules&gt;</code> in <code>os-autoinst</code> now, as well as <code>EXIT_AFTER_START_INSTALL=0 1</code> and <code>INSTALL_ONLY=0 1</code> and <code>INCLUDE_MODULES</code> and <code>EXCLUDE_MODULES</code> we might want to either extend <code>EXIT_AFTER/INSTALL_ONLY</code> to also work with <code>&lt;modules&gt;</code> or also extend to be able to schedule "group of tests", e.g. functions which then call multiple lines with "loadtest"			
<b>Acceptance criteria</b>			
<ul style="list-style-type: none"><li><b>AC1:</b> groups of tests can be scheduled/unscheduled easily with test parameters, e.g. as already with <code>INSTALL_ONLY</code></li></ul>			

#### History

##### #1 - 2018-11-20 10:37 - okurz

- Parent task set to #15132

##### #2 - 2018-11-20 10:37 - okurz

- Subject changed from [functional][y][epic] Extend the use of scheduling test parameters to [functional][y] Extend the use of scheduling test parameters

##### #3 - 2019-01-09 13:53 - okurz

- Due date set to 2019-02-12

pre-fill last sprint in M22 with all tickets within milestone not yet assigned to sprints

##### #4 - 2019-01-21 11:19 - riafarov

- Due date deleted (2019-02-12)

I'm not sure what is the purpose of this one. I would rather invest time in solving main.pm problem for generic case and then aim grouping checks. Also, this grouping might bring us to the state we got with `extra_tests*`, where we don't clean up system properly and it affects further tests making investigation quite complex.

##### #5 - 2019-02-11 11:48 - okurz

- Target version changed from Milestone 22 to Milestone 25

so let's look into this later after some further experiments with better test plan structure

##### #6 - 2019-02-11 11:49 - okurz

- Due date set to 2019-06-04

##### #7 - 2019-04-29 15:08 - riafarov

- Status changed from New to Rejected

- Assignee set to riafarov

We decided to go yaml way, which can be used. Scheduling becomes trivial in this case.
