#14 - 11/02/2019 03:03 pm - okurz
As this is very specific to gnome I think we run into the same self-made problem as mentioned in #45710. In the test module "gnome_control_center" we have an explicit "select_console" x11 which I think resolves to the tty where we have the login screen running, not the logged in session so we do the pretty useless effort to login which we could save by selecting the right tty from the beginning -> "Blocked" by #45710

#17 - 12/03/2019 08:59 pm - okurz

- Blocked by action #48110: [functional][u][sporadic] test failed in different modules that switch from textmode terminal to graphical terminal - unable to login into the gnome session again but we should not even need to login when selecting the correct tty added

#18 - 12/03/2019 08:59 pm - okurz

- Target version changed from Milestone 24 to Milestone 25

#19 - 22/05/2019 10:38 pm - okurz

- Assignee changed from okurz to mgriessmeier

Move to new QSF-u PO after I moved to the "tools"-team. I mainly checked the subject line so in individual instances you might not agree to take it over completely into QSF-u. Feel free to discuss with me or reassign to me or someone else in this case. Thanks.

#20 - 01/07/2019 08:07 am - mgriessmeier

- Target version changed from Milestone 25 to Milestone 26
