Description

Motivation

fschreiner aka. M0ses has done [https://github.com/M0ses/kanku/blob/master/KankuFile.examples/KankuFile.openQA](https://github.com/M0ses/kanku/blob/master/KankuFile.examples/KankuFile.openQA) which can bootstrap an openQA test setup quite easily. He is interested how or if we could combine kanku and openQA further or benefit from each other

Suggestions

- Learn about kanku
- Think about if kanku can be integrated into openQA or the other way around
- Write down findings
