#3 - 05/02/2019 04:08 pm - okurz
- Status changed from New to Workable
- Target version set to Milestone 23

I could see in the video that we actually click the correct close cross in the window but the vlc window does not react to that. It could be that we are just too fast after the video exited. I think a small wait_still_screen in between before clicking would be ok, or we try to click again a second time.

#4 - 17/02/2019 07:43 pm - okurz
- Subject changed from [opensuse][u] test fails in vlc - vlc does not close to [opensuse][u][sporadic] test fails in vlc - vlc does not close failed once in the last 10 jobs.
