Description

Observation

openQA test in scenario opensuse-15.1-NET-x86_64-extra_tests_on_xfce@64bit fails in gnucash

I think that needle is not properly used. If I have understood the test suite, we should expect pop up to close gnucash window.

Reproducible

Fails since (at least) Build 397.3

Expected result

Last good: 397.2 (or more recent)

Further details

Always latest result in this scenario: latest

History

#1 - 22/02/2019 06:22 am - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: extra_tests_on_xfce
https://openqa.opensuse.org/tests/859942

#2 - 26/02/2019 08:59 am - okurz

- Target version set to Milestone 24

#3 - 13/03/2019 06:31 am - okurz

AFAICT the needle was wrong. It was meant to click on the close window icon but instead it clicked on the window title.
