

openQA Tests - action #47228

[QAM] zypper timeouts before installing all packages

2019-02-06 16:17 - emiura

Status: Rejected	Start date: 2019-02-06
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Bugs in existing tests	Estimated time: 0.00 hour
Target version:	
Difficulty:	

Description

Observation

openQA test in scenario OpenQA::Schema::Result::TestSuites=HASH(0xa359f80) fails in [zypper_lifecycle_toolchain](#)

Reproducible

Fails since (at least) Build [:10248:mozilla-nss](#)

Expected result

Last good: [:10269:smt](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

This test is having failures because zypper_call reach timeout (700), just before finishing installing all packages. Maybe a longer timeout helps.
