History

#1 - 2019-02-11 04:38 - okurz

- Copied from action #47333: [sle][Migration][SLE15SP2] automatic check in orphaned_packages_check.pm added

#2 - 2019-12-06 11:12 - maritawerner

I pinged the APAC 1 team to have a look at that tickets.

#3 - 2019-12-10 13:55 - maritawerner

It is not clear what this ticket is about, so I close it.

#4 - 2019-12-10 13:56 - maritawerner

- Status changed from New to Rejected

#5 - 2019-12-10 19:36 - okurz

- Status changed from Rejected to New

the ticket is about the use of the test module "orphaned_packages_check.pm" for other products, e.g. JeOS. It is a ticket specific to this topic. The parent [#47195](#) has the complete original email from Vincent M. which you, Marita, reported as a ticket. Maybe you missed the links to the related tickets? Maybe I can help in other regards as well?

#6 - 2019-12-11 08:40 - maritawerner

Hi Oli, let's talk in person, that is easier.

#7 - 2019-12-12 08:11 - okurz

- Status changed from New to In Progress

- Assignee set to okurz

As discussed with maritawerner in person we think it's easier if I propose a solution that also includes multiple products as I estimate the effort the be in hours or days but not more. I proposed an automatic check based on the existing openQA test module with a PR <https://github.com/os-autoinst/os-autoinst-distrib-opensuse/pull/9148> which we can now test for multiple products.

- Status changed from In Progress to Feedback

Waiting for review approval

#9 - 2020-01-01 11:43 - okurz

- *Status changed from Feedback to Resolved*

- *Target version set to Done*

was merged and basically fine. There were valid bugs reported by the issues found as well as improvements proposed for the test module already by others.
