so can we close this?

So the documentation has been updated last week already. What is missing is the update of the diagram where it says 'we wait 7 days to release an update'. This is actually no longer true and it has to be '5 days'. However, this is not so relevant for users in the end and is just an information which is not correct at the moment, but doesn't have any affect to anyone.

The graphic seems to be lost, at least the initial creator of this graphic doesn't find it anymore. I need to play around with Gimp and will replace this by tomorrow. So you can already close this as the documentation is updated only the image is missing.
