

## openQA Tests - action #47924

### [qam][functional][y][fast] wrong patterns in installation\_overview on SLE 15

2019-02-14 17:09 - bfilho

<b>Status:</b>	Resolved	<b>Start date:</b>	2019-02-14
<b>Priority:</b>	Urgent	<b>Due date:</b>	2019-02-26
<b>Assignee:</b>	JERiveraMoya	<b>% Done:</b>	0%
<b>Category:</b>	Bugs in existing tests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Milestone 23		
<b>Difficulty:</b>			
<b>Description</b>			
<b>Observation</b>			
openQA test in scenario sle-15-Server-DVD-Updates-x86_64-create_hdd_minimal_base+sdk@64bit fails in <a href="#">installation_overview</a>			
<b>Test suite description</b>			
Use ftp instead of ISO, see poo#20984. Contact person: <a href="mailto:riafarov@suse.com">riafarov@suse.com</a> or riararov in irc. Settings backup: ADDONS=sdk ISO_1=SLE-%VERSION%-SDK-DVD-%ARCH%-Build%BUILD_SDK%-Media1.iso Remove ADDONURL and ADDONURL_SDK			
For SLE15 we don't have SDK, as workaround we add all addons as SCC cannot currently be used : bsc#1054375 and other. WORKAROUND_MODULES setting activates this behavior, doesn't affect any other versions of SLE.			
<b>Reproducible</b>			
Fails since (at least) Build <a href="#">20190213-1</a> (current job)			
<b>Expected result</b>			
Last good: <a href="#">20190214-1</a> (or more recent)			
<b>Further details</b>			
Selected patterns seems to be wrong: "patterns: base system" instead of the expected "base system and enhanced base system" (as seen on <a href="https://openqa.suse.de/tests/2443010#step/installation_overview/1">https://openqa.suse.de/tests/2443010#step/installation_overview/1</a> ). This is causing many issue into the Test Repo SLE 15 on qam tests: <a href="https://openqa.suse.de/tests/overview?distri=sle&amp;version=15&amp;build=20190213-1&amp;groupid=165">https://openqa.suse.de/tests/overview?distri=sle&amp;version=15&amp;build=20190213-1&amp;groupid=165</a> and on			
Always latest result in this scenario: <a href="#">latest</a>

## History

### #1 - 2019-02-14 17:10 - bfilho

- Related to action #46682: [functional][y] lvm test need more than 2 hours to run - optimize select\_patterns\_and\_packages added

### #2 - 2019-02-15 08:31 - coolo

- Priority changed from Normal to Urgent

Setting this to urgent on behalf of Marcus

### #3 - 2019-02-15 09:01 - JERiveraMoya

It is trying to unselect enhanced basesystem because it has been already processed (with the new changes in [PR-6732](#) due to it is matching 100% for both basesystem and enhance basesystem. I'm going to try to create individual needles.

**#4 - 2019-02-15 13:07 - JERiveraMoya**

Fixed for [sle-15-Server-DVD-Updates-create\\_hdd\\_minimal\\_base+sdk](#)

**#5 - 2019-02-15 14:05 - okurz**

- Subject changed from *[qam] wrong patterns in installation\_overview on SLE 15* to *[qam][functional][y][fast] wrong patterns in installation\_overview on SLE 15*

- Due date set to 2019-02-26

- Status changed from *New* to *Resolved*

- Assignee set to *JERiveraMoya*

- Target version set to *Milestone 23*

Seems like you fixed it then? <https://openqa.suse.de/tests/2465959>
