

## openQA Tests - action #48530

### [qam] Test fails in update\_install for networkmager update on ppc64le and s390

2019-02-28 12:22 - pcervinka

<b>Status:</b>	Rejected	<b>Start date:</b>	2019-02-28
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>	pcervinka	<b>% Done:</b>	0%
<b>Category:</b>	Spike/Research	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Difficulty:</b>			
<b>Description</b>			
NetworkManager S:M:10113:182881 fails in update_install. It complains about missing branding package, which is mainly for WE,SLED and TD. <a href="https://openqa.suse.de/tests/2469284#step/update_install/35">https://openqa.suse.de/tests/2469284#step/update_install/35</a>			

#### History

##### #1 - 2019-03-04 08:56 - SLindoMansilla

- Category set to Spike/Research

As result of backlog triaging (see <https://progress.opensuse.org/projects/openqatests/wiki#ticket-backlog-triaging> for more information). I consider this a product bug and the best category for me would be Spike/Research.

Please, feel free to adjust the category to a better one if you think different.

##### #2 - 2019-03-07 21:27 - pcervinka

- Assignee changed from osukup to pcervinka

- Priority changed from High to Low

Not a test issue, maint-coord were updated, no response so far. I will create bug and and close poo(soon).

##### #3 - 2019-04-26 08:02 - pcervinka

- Status changed from New to Rejected

Bug is bsc#1127507.
