

## openQA Tests - action #48656

### [qam] qam-yast\_self\_update[+15] fails in welcome

2019-03-04 16:35 - kgw\_suse

<b>Status:</b>	Resolved	<b>Start date:</b>	2019-03-04
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	tjyrinki_suse	<b>% Done:</b>	0%
<b>Category:</b>	Bugs in existing tests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Difficulty:</b>			
<b>Description</b>			
<b>Observation</b>			
openQA test in scenario sle-15-Server-DVD-Updates-x86_64-qam-yast_self_update+15@64bit fails in <a href="#">welcome</a> . Apparently a requested installer update can't be downloaded.			
<b>Test suite description</b>			
Installer self update test for Maintenance Updates under test			
<b>Reproducible</b>			
Fails since (at least) Build <a href="#">20190226-2</a>			
<b>Expected result</b>			
Last good: <a href="#">20190226-1</a> (or more recent)			
Comparing with the 20190226-2 fail above this testrun appears to not include the installer self-update action which causes the problem in the more recent runs.			
<b>Further details</b>			
Always latest result in this scenario: <a href="#">latest</a>			
Verified that the desired update <a href="#">/mounts/dist/ibs/SUSE:/Maintenance:/Test:/SLE-INSTALLER:/15:/x86_64/update/x86_64/yast2-storage-ng-4.0.218-3.41.1.x86_64.rpm</a> exists as of now.

## History

### #1 - 2019-03-04 16:49 - okurz

- Subject changed from SLE-15: qam-yast\_self\_update+15 fails in welcome to [qam] SLE-15: qam-yast\_self\_update+15 fails in welcome

@kgw should be in [qam] sub-backlog, still, right?

### #2 - 2019-03-04 21:46 - pcervinka

- Assignee set to osukup

### #3 - 2019-03-19 07:22 - okurz

This is an autogenerated message for openQA integration by the openqa\_review script:

This bug is still referenced in a failing openQA test: qam-yast\_self\_update+15  
<https://openqa.suse.de/tests/2567431>

**#4 - 2019-03-19 09:11 - osukup**

Caused by the limitation of Yast installer to use only one Self-Update repository,

Only one possible workaround .. create Aggregate repository with both released and under test updates.

@Marcus and @boiko

**#7 - 2019-11-06 09:54 - osukup**

- Status changed from New to In Progress

it needs action from maintenance team ... I'll try talk with boiko nad markus

**#8 - 2019-11-06 11:38 - osukup**

- Subject changed from [qam] SLE-15: qam-yast\_self\_update+15 fails in welcome to [qam] qam-yast\_self\_update[+15] fails in welcome

**#9 - 2019-12-02 09:15 - brhavel**

- Assignee changed from osukup to brhavel

there is needed an action from side of Maintenance coordination and IBS

**#10 - 2020-01-10 07:53 - okurz**

This is an autogenerated message for openQA integration by the openqa\_review script:

This bug is still referenced in a failing openQA test: qam-yast\_self\_update+15

<https://openqa.suse.de/tests/3773341>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

**#11 - 2020-02-26 13:05 - dzedro**

- Related to action #62657: [qam] test fails in reboot\_after\_installation added

**#12 - 2020-06-25 08:03 - tjyrinki\_suse**

- Status changed from In Progress to Resolved

- Assignee changed from brhavel to tjyrinki\_suse

Problem seems to be solved.
