

openQA Tests - action #48794

[opensuse] build_key should handle openSUSE properly

2019-03-07 10:46 - ggardet_arm

Status: Resolved	Start date: 2019-03-07
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Bugs in existing tests	Estimated time: 0.00 hour
Target version:	
Difficulty:	

Description

Observation

openQA test in scenario opensuse-15.1-JeOS-for-AArch64-aarch64-jeos-extra@aarch64-HD24G fails in [build_key](#)

Test suite description

Same as jeos, plus some more tests.

Reproducible

Fails since (at least) Build [5.14](#) (current job)

Expected result

Last good: (unknown) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

build_key test check for suse-build-key, but it should check for openSUSE-build-key in case of openSUSE.

History

#1 - 2019-03-07 15:21 - ccret

- Status changed from New to In Progress

I updated the test for openSUSE.

PR: <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/6985>

Thank you,
Ciprian

#2 - 2019-03-08 07:25 - SLindoMansilla

- Subject changed from build_key should handle openSUSE properly to [opensuse] build_key should handle openSUSE properly

PR merged.

As a result of backlog triaging (see <https://progress.opensuse.org/projects/openqatests/wiki#ticket-backlog-triaging> for more information).

Please, feel free to adjust the category or the "[label]" if you think different.

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed
