a ncurses window popped up when running "yast add-on parameter", obviously this is ncurses mode, NOT command line. This issue happened on all products from SLE12SP1 to SLE15SP1. I think it should be marked "Blocked".

#3 - 2019-09-09 03:33 - jgwang

- Status changed from In Progress to Rejected

Rejects this action because of no command line mode for yast2-add-on.
