Category:	Estimated time: 0.00 hour
Target version: future	

Description

Create regression test for yast proxy and verify:

- Specify the authentication options for proxy
- Enable/disable proxy settings
- Change the current proxy settings
- Display proxy settings

- Status changed from In Progress to Feedback

A bug was found while running the yast proxy authentication command, and the test cannot proceed. I am waiting for feedback from bugzilla:

https://bugzilla.suse.com/show_bug.cgi?id=1140156

#5 - 2019-09-11 02:44 - simonlm

- Status changed from In Progress to Blocked

yast proxy module and its subcommands always popped up an ncurses confirmation window, which needed to get some key message to continue. Resulting in no suitable API to verify my running commands. For details, please see the link: https://bugzilla.suse.com/show_bug.cgi?id=1140156#c3
