**Description**

#### Observation

The problem is in function "addon\_license", this test doesn't have variable BETA\_SDK, unlike sle-12-SP5-Desktop-DVD-x86\_64-Build0116-sdk+allpatterns@64bit <https://openqa.suse.de/tests/2738424#settings>

So I'm adding "BETA\_SDK=1" to "sdk+allpatterns+workaround\_deps".

openQA test in scenario sle-12-SP5-Desktop-DVD-x86\_64-sdk+allpatterns+workaround\_deps@64bit fails in [addon\\_products\\_sle](#)

#### Test suite description

#### Reproducible

Fails since (at least) Build [0104](#)

#### Expected result

Last good: (unknown) (or more recent)

#### Further details

Always latest result in this scenario: [latest](#)
