**Description**

In wicked testsuite, it would be a nice feature to copy files from and to VM without having a working Network.

**History**

#1 - 2019-05-06 08:36 - SLindoMansilla
- Category set to Enhancement to existing tests

As a result of backlog triaging (see https://progress.opensuse.org/projects/openqatests/wiki#ticket-backlog-triaging for more information).

Please, feel free to adjust the category or the "[label]" if you think different.

- Status changed from New to Workable
- Assignee set to cfconrad
- Target version set to 445

#3 - 2019-05-08 14:44 - cfconrad

I've played a bit with https://github.com/cfconrad/os-autoinst-distri-opensuse/commit/2f639641ebae093b6ba53b303a309b9519122b70b
The problem with this is, that the job looks really messy with it, a lot of test-steps are displayed. Also the file is listed in serial.log.

#4 - 2019-05-15 08:52 - cfconrad

Continue to play with this. I added a additional virtio_console and used this to transfer the files.
This additional console need to be enabled manually with systemctl start serial-login@hvc1 on the VM.
To make the GUI looks nicer, I added a quiet option to all assert_run_script() and co calls.
I reduced the chunksize to 2k, otherwise it wasn't stable.
