

openQA Tests - action #51101

[kernel][public cloud] Set IPA test result to OK

2019-05-05 20:27 - cfconrad

Status:	Resolved	Start date:	2019-05-05
Priority:	Normal	Due date:	
Assignee:	cfconrad	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:	QE Kernel Done		
Difficulty:			
Description			
Fail only if there is a unexpected error. But if IPA produce a valid results.json file, we use parse_extra_log() to upload these and calculate the overall result from it. This should avoid warnings from JDP with untagged failed tests.			

History

#1 - 2019-05-06 08:35 - SLindoMansilla

- Category set to Bugs in existing tests

As a result of backlog triaging (see <https://progress.opensuse.org/projects/openqatests/wiki#ticket-backlog-triaging> for more information).

Please, feel free to adjust the category or the "[label]" if you think different.

#2 - 2019-05-06 11:30 - jlausuch

- Status changed from New to Workable

- Assignee set to cfconrad

- Target version set to 445

#3 - 2019-05-13 08:46 - cfconrad

<https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/7447>

#4 - 2019-05-20 11:41 - cfconrad

- Status changed from Workable to Resolved

#5 - 2019-05-22 09:34 - jlausuch

- Target version changed from 445 to 457

#6 - 2020-10-23 13:38 - pcervinka

- Target version changed from 457 to QE Kernel Done
