Target version:				
Difficulty:				

Description

Observation

Same test outputs before passed but now are failing despite positive result message 'Passed all 1 tests'.

generic-012

system-out:

FSTYP   -- btrfs
PLATFORM   -- Linux/x86_64 susetest 4.12.14-150.14-default
MKFS_OPTIONS -- /dev/vda5
MOUNT_OPTIONS -- /dev/vda5 /mnt/scratch

generic/012QA output created by 012
012 not run: xfs_io fcollapse failed (old kernel/wrong fs?)
[not run] xfs_io fcollapse failed (old kernel/wrong fs?)
Ran: generic/012
Not run: generic/012
Passed all 1 tests

Test suite description

xfstests btrfs category(btrfs/???) for btrfs filesystem. Parameters:

XFSTESTS: File system to be tested and xfstests category(e.g. btrfs-generic)
XFSTESTS_BLACKLIST: A coma seperated list of tests to be skipped(e.g. btrfs/001,btrfs/008)
set NO_KDUMP=1 to disable kdump

Reproducible

Fails since (at least) Build 20190512-1

Expected result

Last good: 20190511-1 (or more recent)

Further details

Always latest result in this scenario: latest

History

#1 - 2019-05-14 02:41 - yosun

For description part in this ticket, the reason is that we consider skip test as a pass test. So it says pass all 1 test.

But the following link in that ticket "Reproducible" is a different case, and it's a very common fail in xfstests, the fail part it point out is
https://openqa.suse.de/tests/2885523#step/1_/73

It means the test process is good, but it fails in the subtest generic/073. Need to debug with print out log and some extra logs inside following
https://openqa.suse.de/tests/2885523/file/log-generic.tar.xz
https://openqa.suse.de/tests/2885523/file/serial0.txt

This test totally follow upstream, so some times is test internal issue, some times is kernel issue, need to debug case by case.

#2 - 2019-05-14 10:47 - dzedro

Thank you Sero. There are multiple failures,
xfstests_btrfs-generic-401-999 & xfstests_xfs-generic-401-999 tests is failing always since added on SLE15, 12SP4 and 12SP3.
On 12SP3 is failing xfstests_btrfs-generic-301-400. Somebody will look closer.

#4 - 2019-05-23 16:02 - jbaier_cz

- Assignee set to jbaier_cz

I am on it, some tests will be dropped, some reorganized.

#5 - 2019-05-23 16:06 - jbaier_cz

- Subject changed from [qam] test fails in 1_ (xfstests_btrfs-generic-...) to [qam][yellow] test fails in 1_ (xfstests_btrfs-generic-...)

- Status changed from New to In Progress

#6 - 2019-05-24 15:11 - jbaier_cz

- Status changed from In Progress to Resolved

From this point, all xfstests for 12sp?/15 should be green.

#7 - 2019-06-03 14:39 - dzedro

- Status changed from Resolved to In Progress

xfstests are still failing, I guess due to split sometimes in test generate_report or in test 1_test_result

#8 - 2019-07-30 06:21 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: qam-xfstests_btrfs-generic+sle12
https://openqa.suse.de/tests/3161569
