<b>Target version:</b>	
<b>Difficulty:</b>	

**Description**

### Observation

After setting SYSTEM\_ROLE=notdefault to make the test run further, the test stop at first\_boot.

I think previously the value for DESKTOP is "", now it is set to 'textmode' by yaml schedule (I think).

I wonder if setting DESKTOP=gnome in testsuites settings is the correct way to do.

openQA test in scenario sle-12-SP5-Desktop-DVD-x86\_64-RAID1@64bit fails in [first\\_boot](#)

### Test suite description

Maintainer: slindomansilla, jrauch

Installation of RAID1 using expert partitioner.

### Reproducible

Fails since (at least) Build [0138](#)

### Expected result

Last good: [0135](#) (or more recent)

### Further details

Always latest result in this scenario: [latest](#)

## History
