[opensuse][functional][u] test fails in dolphin -- "kdialog --getopenfilename" fails to start

2019-05-23 19:52 - StefanBruens

Status:	Rejected	Start date:	2019-05-23
Priority:	Normal	Due date:	
Assignee:	zluo	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	42.00 hours
Target version:	Milestone 28		
Difficulty:			
Description			
Observation			
openQA test in scenario opensuse-Tumbleweed-DVD-x86_64-kde@64bit fails in dolphin			
Test fails in all scenarios (Regular system, live, new install, upgrade ...).			
Test suite description			
TIMEOUT_SCALE property is added to avoid sporadic shutdown fails in kde@USBboot_64 scenario.			
Added by : oorlov;			
Related ticket: poo#37000			
Reproducible			
Fails since (at least) Build 20190522 (current job)			
Expected result			
Last good: 20190521 (or more recent)			
Further details			
Always latest result in this scenario: latest

History

#1 - 2019-05-23 20:05 - StefanBruens

This seems to be a problem in krunner, as it fails to start **any** program on first attempt, watch the video starting here:

<https://openqa.opensuse.org/tests/940920/file/video.ogv#t=715.21.715.25>

And according to the journal, krunner wants to tell us something:

```
May 23 14:33:19 susetest krunner[1588]:  
May 23 14:34:06 susetest krunner[1588]:  
May 23 14:34:53 susetest krunner[1588]:  
May 23 14:35:39 susetest krunner[1588]:
```

<https://openqa.opensuse.org/tests/940920/file/dolphin-journal.log>

#2 - 2019-05-24 10:48 - StefanBruens

Regression caused by <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/7442>

#3 - 2019-05-27 11:43 - SLindoMansilla

- Subject changed from *test fails in dolphin -- "kdialog --getopenfilename" fails to start* to *[opensuse] test fails in dolphin -- "kdialog --getopenfilename" fails to start*

As a result of backlog triaging (see <https://progress.opensuse.org/projects/opensuse/wiki/ticket-backlog-triaging> for more information).

Please, feel free to adjust the category or the "[label]" if you think different.

#4 - 2019-06-13 16:15 - ggardet_arm

Seems to be fixed as since test 940859, all tests are fine regarding this ticket:

https://openqa.opensuse.org/tests/latest?version=Tumbleweed&distri=opensuse&arch=x86_64&machine=64bit&test=kde&flavor=DVD#next_previous

#5 - 2019-06-13 16:57 - StefanBruens

I wouldn't consider "Tries to start 10 times, fails 10 times, and falls through" "fine". There are at least 5 test cases (oowriter, oocalc, oomath, dolphin, amarok) which are affected by this (25 minutes wasted for this scenario alone).

https://openqa.opensuse.org/tests/latest?flavor=DVD&version=Tumbleweed&test=kde&arch=x86_64&distri=opensuse&machine=64bit

- Related to action #53045: *[opensuse][kde][sporadic] krunner suggestions check is racy added*

#7 - 2019-06-14 08:45 - okurz

- Related to action #35589: *[functional][u][opensuse][sporadic][medium] test fails in kontakt - needs workaround for boo#1105207, then akregator not closed added*

#8 - 2019-12-11 15:12 - zluo

- Subject changed from *[opensuse] test fails in dolphin -- "kdialog --getopenfilename" fails to start* to *[opensuse][functional][u] test fails in dolphin -- "kdialog --getopenfilename" fails to start*

- Status changed from *New* to *In Progress*

- Assignee set to *zluo*

- Target version set to *Milestone 28*

- Estimated time set to *42.00 h*

take over and check

#9 - 2019-12-12 09:12 - zluo

- Status changed from *In Progress* to *Rejected*

https://openqa.opensuse.org/tests/1109749#next_previous shows this issue got gone.
reject for now.
