<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 100%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 14.1	
<b>Description</b> It should be possible to execute some administrative shell-scripts via invis-portal.	
<b>Related issues:</b> Related to invisAD-setup - action #25528: Execute membermod via invis-portal <b>Closed</b> <b>2017-09-23</b>	

#### History

##### #1 - 2019-05-27 08:25 - flacco

- Related to action #25528: Execute membermod via invis-portal added

##### #2 - 2019-05-27 08:31 - flacco

Scripts to be added:

- membermod - adding RFC2307 attributes to the machine accounts of domain member computers
- fixgsacls - Reset the permissions and ACLs of the groupshare folders
- inhume - remove data from deleted users for example from kopano database
- mkdbsilent - create a new empty MariaDB database.

Some of these scripts, like inhume and mkdbsilent need position parameters, therefore the invis-portal has to ask for them.

##### #3 - 2019-05-27 08:32 - flacco

- % Done changed from 0 to 20

##### #4 - 2019-05-27 09:15 - flacco

- Subject changed from invis-Portl: Add a new function-site to invis-Portal: Add a new function-site

##### #5 - 2019-05-27 09:17 - flacco

The page is added and the first to scripts are placed. We have to find a way to get feedback from the shell-scripts back to the portal. We could do this with temp-files.

##### #6 - 2019-08-11 13:58 - flacco

- Status changed from In Progress to Closed

- % Done changed from 20 to 100

Done. Should be expanded in further releases.
