Description

Observation

This seems to be caused by an extra setting "SYSTEM_ROLE=textmode", I will investigate deeper later.

openQA test in scenario sle-12-SP5-Desktop-DVD-x86_64-textmode@64bit fails in [first_boot](#)

Test suite description

Maintainer: okurz

Installation in textmode and selecting the textmode "desktop" during installation.

Reproducible

Fails since (at least) Build [0153](#) (current job)

Expected result

Last good: [0145](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

History

#1 - 2019-06-05 12:09 - riafarov

Might be related to this change: <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/7564/files>

#2 - 2019-06-06 02:47 - zcjia

By setting SYSTEM_ROLE to " fixes this problem: <https://openqa.suse.de/tests/2952581>

[riafarov](#), this variable is not set by PR#7564, that only affects sle15+.

This variable is set in "Test suites" page in OSD. It may be updated by osukup: <https://openqa.suse.de/admin/auditlog?eventid=2474654>

[osukup](#), what do you think?
