### bugzilla.opensuse.org unreachable for more than 30 minutes

2019-06-21 05:13 - mrmazda

<b>Status:</b>	Resolved	<b>Start date:</b>	2019-06-21
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	okurz	<b>% Done:</b>	0%
<b>Category:</b>	Servers hosted in Provo	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
<a href="https://downforeveryoneorjustme.com/bugzilla.opensuse.org">https://downforeveryoneorjustme.com/bugzilla.opensuse.org</a> confirms it is unreachable. It times out here in SE USA in SeaMonkey, Firefox ESR & Chromium.			

#### History

##### #1 - 2019-06-21 07:23 - pjessen

- Category set to Servers hosted in Provo
- Private changed from Yes to No

I can confirm, bugzilla.o.o cannot be reached from here either. Ports 80 and 443 are responding, but I never get anywhere.

And virtually just as I entered the above, I got in. Maybe someone was doing some maintenance?

##### #3 - 2019-06-21 07:33 - mrmazda

<https://downforeveryoneorjustme.com/bugzilla.opensuse.org> still cannot reach it and neither can I.

##### #4 - 2019-06-21 08:41 - okurz

- Status changed from New to Feedback
- Assignee set to okurz

same for me now, was escalated to MF-IT.

I updated <https://status.opensuse.org>

##### #5 - 2019-06-21 11:05 - okurz

access to <https://bugzilla.opensuse.org> seems to work for me now.

##### #6 - 2019-06-21 11:34 - mrmazda

Still not accessible to <https://downforeveryoneorjustme.com/bugzilla.opensuse.org> or me.

##### #7 - 2019-06-21 20:29 - okurz

<https://downforeveryoneorjustme.com/bugzilla.opensuse.org> shows it's up. Looks ok for me however I have not received any direct information from MF-IT though.

##### #8 - 2019-07-16 10:08 - okurz

- Status changed from Feedback to Resolved

Unfortunately I have never received a proper status update from MF-IT directly but I am sure the problems as reported initially are not present anymore as I have neither problems myself nor heard from others recently.
