Support parameters in {load,dump}_templates

2019-07-11 09:44 - cdywan

Status:	Resolved	Start date:	2019-07-11
Priority:	Normal	Due date:	
Assignee:	cdywan	% Done:	0%
Category:	Feature requests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
The scripts load_templates and dump_templates can be used for export and import, with support for a JSON format. With the introduction of parameters the scripts will fail when they're used.			

History

#1 - 2019-07-11 09:47 - cdywan

[mkittler](https://github.com/os-autoinst/openQA/pull/2074) worked on this PR <https://github.com/os-autoinst/openQA/pull/2074>

We discussed however that in the meantime the code changed a lot, making this a moving target and I'm taking a fresh look at it. Also using the actual YAML rather than supporting it in the custom JSON.
