Now adding this test in Development area in <https://openqa.opensuse.org/>.

#3 - 2019-08-29 03:14 - zcjia

There are some failures: <https://openqa.opensuse.org/tests/1018993><https://openqa.opensuse.org/tests/1018988>

Because they try to access suse internal websites. Most tests are passed.

#4 - 2019-10-14 02:11 - zcjia

Since firefox 68 is updated in sle15sp2 and passed: <https://openqa.suse.de/tests/3463858>

I'll remove this testcase from TW.
