

## openQA Project - action #54965

coordination # 58184 (Blocked): [saga][epic][use case] full version control awareness within openQA, e.g. user forks and branches, fully versioned test schedules and configuration settings

### Cannot inspect the source code of the tests from my fork

2019-08-01 15:20 - aplanas

<b>Status:</b>	Resolved	<b>Start date:</b>	2019-08-01

<b>Target version:</b>			
<b>Difficulty:</b>			
<b>Description</b>			
In tests like the one running in <a href="https://openqa.opensuse.org/tests/997600">https://openqa.opensuse.org/tests/997600</a> I am not able to inspect the source code of my tests. For example: <a href="https://openqa.opensuse.org/tests/997600/modules/run_yomi/steps/1/src">https://openqa.opensuse.org/tests/997600/modules/run_yomi/steps/1/src</a> I wonder if is some cache problem, as I am amending commits are force pushing them to my develop branch <a href="https://github.com/aplanas/os-autoinst-distri-opensuse.git#yomi">https://github.com/aplanas/os-autoinst-distri-opensuse.git#yomi</a>

### History

#### #1 - 2019-08-01 15:26 - okurz

- Blocked by action #10192: Improve source code window added

#### #2 - 2019-08-01 15:28 - okurz

- Category set to Feature requests  
- Priority changed from Normal to Low

It kinda is a caching problem, one we had since the beginning: The source code window simply shows the files from `/var/lib/openqa/share/tests/$distri` in the most recent state so neither referring to the state of code at the time of test execution nor pointing to any source that was coming from a git clone.

#### #3 - 2019-10-17 18:25 - okurz

- Parent task set to #58184

#### #4 - 2019-10-24 12:33 - mkittler

- Related to action #56789: New needles from git repository not working with openqa-clone-custom-git-refspec added

#### #5 - 2019-11-26 09:56 - okurz

- Has duplicate action #60254: check module src code through openqa webui link not consistent with the real running code when using openqa-clone-custom-git-refspec added

#### #6 - 2020-02-18 13:23 - okurz

- Status changed from New to In Progress  
- Assignee set to okurz

<https://github.com/os-autoinst/openQA/pull/2748>

**#7 - 2020-02-19 19:43 - okurz**

- Status changed from *In Progress* to *Feedback*

Merged

**#8 - 2020-02-20 19:06 - okurz**

Need a minor fix in case users use the ".git" variant of github repo URLs: <https://github.com/os-autoinst/openQA/pull/2758> . Further features can go into [#10192](#)

**#9 - 2020-02-21 22:45 - okurz**

- Blocked by deleted (action #10192: Improve source code window)

**#10 - 2020-02-21 22:46 - okurz**

- Status changed from *Feedback* to *Resolved*

Was deployed on both o3 and osd. <https://openqa.opensuse.org/tests/1182221> correctly shows links like <https://openqa.opensuse.org/tests/1182221/modules/isosize/steps/1/src> that redirect to <https://github.com/okurz/os-autoinst-distri-opensuse/blob/360cc0296f8a7c618d8a82e137edadc2dece8873/tests/installation/isosize.pm#> correctly.
