**Description**

Image upload is ok, but during cleanup we get following error message:

Created image: ami-074c17922d96d6876
An error occurred (DependencyViolation) when calling the DeleteSecurityGroup operation: resource sg-0cd4d10d680677a98 has a dependent object

Just re-trigger works for now, as the image is uploaded and the next run just found it.
