[qam] test fails in evolution_smoke - email address does not get set up automatically

2019-09-02 11:53 - vsvecova

Status:	Resolved	Start date:	2019-09-23
Priority:	Urgent	Due date:	2019-09-25
Assignee:	tjyrinki_suse	% Done:	100%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
Observation			
Email address ' nooops_test3@aim.com ' does not get its sending and receiving servers set up automatically; instead the test continues to manual servers set up and therefore fails.			
According to video, the email address gets typed correctly and the option to look up the servers automatically is ticked.			
openQA test in scenario sle-15-Desktop-DVD-Updates-x86_64-qam-regression-message@64bit fails in evolution_smoke			
Test suite description			
Reproducible			
Fails since (at least) Build 20190830-2			
Expected result			
Last good: 20190830-1 (or more recent)			
Further details			
Always latest result in this scenario: latestlatest 15SP1			
Subtasks:			
action # 57218: [qam] temporary prepare workaround for x11/evolution test in aggregate...			Resolved

History

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: qam-regression-message
<https://openqa.suse.de/tests/3371737>

#2 - 2019-09-24 08:52 - zcjia

Hi, this is an upstream server config issue and has been solved:

see https://bugzilla.suse.com/show_bug.cgi?id=1151750 and <https://openqa.suse.de/tests/3397700>

#3 - 2019-10-01 11:54 - tjyrinki_suse

- Status changed from New to Resolved

- Assignee set to tjyrinki_suse

I've rerun this at <https://openqa.suse.de/tests/3424806#> and indeed the original problem seems gone. However there is a new problem regarding dovecot installation as seen at <https://progress.opensuse.org/issues/57584>
